

STROKE AWARENESS

Course Number
VEL0307

Time Required
55 minutes

Assessment
Formal (multiple choice)

Approvals
CPD

Strokes are the fourth single leading cause of death in the UK, as well as a leading cause of disability. Being aware of the causes and symptoms will help you act fast in a situation where you suspect someone is having a stroke and provide them with the best chance of receiving the treatment they need and minimising the long term impact of the condition.

This course will cover the types of strokes, the symptoms, and risk factors. It will also cover the treatment options and the longer term impact of the condition.

Recommended System Requirements

- Browser: Up to date web browser
- Video: Up to date video drivers
- Memory: 1Gb+ RAM
