

CDM AWARENESS

Course Number
VEL0201.3

Time Required
40 minutes

Assessment
Formal (multiple choice)

Approvals
IIRSM

The Construction Design and Management Regulations cover the management of health, safety and welfare when carrying out construction projects. Whatever your role in the construction industry these regulations are there to improve your health and safety.

Recommended System Requirements

- Browser: Up to date web browser
- Video: Up to date video drivers
- Memory: 1Gb+ RAM
- Download Speed: Broadband (3Mb+)

They are intended to ensure that projects are planned and run effectively and safely right from the start.

This awareness course covers the core concepts of the regulations and details the various roles that are required for a construction project along with the key documents that need to be produced. It starts with an introduction to CDM, then covers some of the parameters that need to be checked when a project is being planned. It finishes by detailing a number of example projects that illustrate how the regulations can be applied.

Suitable for:
Commercial

Modules:

- Module One: Legislation
- Module Two: CDM Application and Notification
- Module Three: Duty Holders and Documents
- Module Four: Duties and Legal Documents
- Module Five: Example Projects and Summary
