

# CEREBRAL PALSY AWARENESS

## Course Number

S1

## Validity

3 Years

## Duration

3 Hours

## Assessment

-

**This half-day Cerebral Palsy Awareness course provides delegates with an understanding of the causes, types, symptoms, and long-term implications of cerebral palsy. The course explores how the condition affects movement, posture, and associated functions, and offers practical strategies for providing person-centred care. Delegates will also consider ageing with cerebral palsy, treatment approaches, and how to maintain physical functioning. Suitable for support workers, healthcare staff, and carers.**

### Introduction
