

EMERGENCY PAEDIATRIC FIRST AID

Course Number

SC0104.1

Validity

3 Years*

Duration

1 Day

Assessment

Continuous

This course teaches the techniques required to maintain life until qualified medical assistance can take over.

Delegates will learn how to conduct primary and secondary assessment including placing child into the recovery position. They will also learn the principles of resuscitation, management of an unconscious child, choking, breathing problems, control of bleeding, shock, burns and first aid kits.

* Whilst the overall course is valid for 3 years, it is strongly recommended that the resuscitation component is refreshed annually.

Suitable for:

Care, Education
and Commercial
