

SCHIZOPHRENIA AWARENESS

Course Number

S1

Validity

3 Years

Duration

3 Hours

Assessment

-

This half-day course provides participants with an essential overview of Schizophrenia, focusing on its causes, types, and how to support individuals living with the condition. Aimed at care staff, support workers, and others in the health and social care field, the session encourages open discussion and reflection to help learners better understand and respond to the needs of service users affected by Schizophrenia.

Introduction

- Welcome, housekeeping and introductions
